

Gluten free brownies by Gillian's Foods

November 17, 11:02 AM • Manhattan Gluten-Free Food Examiner • Bernice Mast

Gluten-free brownies are a food some people can't live without, but even if you are not a chocoholic or brownie devotee, these brownies are pretty special. For one, they contain some fiber (not often found in gluten-free desserts) just a tad of fat, which will probably encourage you to guiltlessly eat more of them than you otherwise would have. Nutrition aside, these brownies are deliciously fudgy. Tasted by a gluten-eater and a gluten-avoider, the review in both cases was undeniably positive. Excellent job, [Gillian's!](#)
